

REMARKS

This amendment is in accordance to a personal interview conducted on September 9, 2004. claim 21 has been amended. Claim 140 is new. Applicants whish to thank the Examiner for the interview and Mrs. Beatriz for her assistance. In the interview it was agreed that the applicants would amend claim 21 to overcome a 35 U.S.C. §112 objection. Additionally, it was agreed that the Examiner would reconsider independent claims 14, 16 and 21, for which applicant represented arguments that the included limitations are not shown in the art.

Regarding claim 1, applicants request reconsidering his argument that the cited art would not be considered in any way by a person skilled in the art to meet the limitations of claim 1, at least for the reason that using a non-Latin language in Osaku would limit Osaku's flexibility for using multiple input devices in a way which would counter act Osaku's utility.

Applicants have added new independent claim 140 for the consideration of the Examiner. Claim 140 comprises claim 1 with an additional limitation suggested in the discussion at the interview.

In view of the above interview and amendment, applicants respectfully await allowance of the claims. In the event that the Examiner finds any further problems, which would make it impossible to issue an allowance for all the claims, the Examiner is respectfully requested to call the undersigned at 1 (877) 428-5468, which is a US toll free number conncted directly to our office in Israel (please note the 7 hour time difference and the official work week is from Sunday to Thursday).

Respectfully submitted,
Aviv REFUAH et al.

Maier Fenster
